Aika: Perjantai 4.10. klo 10.00 – 17.00

Lauantai 5.10. klo 9.00 – 15.00

Paikka: Hotelli Presidentti, Eteläinen Rautatiekatu 4, Helsinki

Osallistumismaksu: 220 € (alv 0%), hintaan sisältyy lounas ja kahvit.

Ilmoittautuminen: taloudenhoitajalle 20.9.2013 mennessä

Ilmoittautumisen jälkeen saat vahvistuksena viitenumeraalla varustetun laskun.

Perjantai 4.10.

This workshop will focus on the integration of structural psychoanalytic theory and the Comprehensive System in the interpretation of Rorschach protocols. Topics covered will be:

1. Introduction of the structural model of personality based on the work of Kernberg
2. Discussion of the four sources of data in a Rorschach protocol that are relevant to this model of personality:
 - a. Structural Summary
 - b. Sequence Analysis
 - c. Language
 - d. Relationship with the examiner
3. Psychodynamic Interpretation of key Rorschach variables
4. In-depth analysis of 2 cases

Lauantai 5.10.

Day two will be devoted to the in-depth consideration of two topics:

1. The analysis of defenses on the Rorschach from both an ego psychological perspective (ala Schafer) and an object relational perspective (ala Lerner).
2. The special case of Space responses and their relationship to the Winnicottian concept of potential space as it applies to Rorschach responses.

Both of these will be illustrated with in-depth analysis of case material.

Bruce L. Smith, Ph.D., ABAP

President, International Society for Rorschach and Projective Methods
